In re Patent No. 7,702,125 : DECISION ON REQUEST
Levy, et al. : FOR
Issue Date: April 20, 2010 : RECONSIDERATION OF
Application No. 10/774,312 : PATENT TERM ADJUSTMENT
Filed: February 5, 2004 : and
Atty. Docket No.P0930 : NOTICE OF INTENT TO ISSUE
: CERTIFICATE OF CORRECTION

This is a decision on the petition filed on May 12, 2010, which is being treated as a petition under 37 CFR 1.705(d) requesting that the patent term adjustment indicated on the above-identified patent be corrected to indicate that the term of the above-identified patent is extended or adjusted by one thousand, eight hundred and thirty-six (1,836) days.

The petition to correct the patent term adjustment indicated on the above-identified patent to indicate that the term of the above-identified patent is extended or adjusted by one thousand, six hundred and seventeen(1,617) days¹ is **GRANTED to the extent indicated herein.**

¹ The period of overlap between the "A" delay and the "B" delay is 0 days, not 183 days as patentees state. It is noted that, in this case where no Request for Continued Examination was filed, the relevant period under 35 U.S.C. 154(b)(1)(B) in determining whether periods of delay overlap under 35 U.S.C. 154(b)(2)(A) is the entire period during which the application was pending before the Office, from the filing date of the application to the issue date of the patent, excluding periods during which the application was under appeal. It is further noted that "A" delays and "B" delays overlap only if such delays occur on the same calendar day. The relevant period of "B" delay began March 14, 2008, and ended April 20, 2010. There is no period of "A" delay and "B" delay that occur on the same calendar day. Thus, the period of overlap between the "A" delay and the "B" delay is 0 days.

It is noted that patentees failed to account for the filing of the notices of appeal on August 4, 2008, and April 22, 2009. The Office reminds patentees that the period consumed by appellate review, whether successful or not, is excluded from the calculation of B delay. See 35 U.S.C. 154(b)(1)(B)(ii). In this instance, the periods consumed by appellate review is 402 days, beginning on the date on which the notices of appeal to the Board of Patent Appeals and Interferences were filed, August 4, 2008, and ending on January 22, 2009—date the non-final Office Action was mailed—and December 7, 2009—the date the Notice of Allowance was mailed, respectively. Thus, the B delay is 768 days (1170 - 402). Accordingly, the patent term adjustment is 1,617 days (854 days of A delay + 768 days of B delay - 0 days of overlap - 5 days of applicant delay).

The Office will *sua sponte* issue a certificate of correction. Pursuant to 37 CFR 1.322, the Office will not issue a certificate of correction without first providing assignee or patentee an opportunity to be heard. Accordingly, patentees are given **one (1) month or thirty (30) days**, whichever is longer, from the mail date of this decision to respond. No extensions of time will be granted under § 1.136.

Nothing in this decision shall be construed as a waiver of the requirement of 35 U.S.C. 154(b)(4) that any civil action by an applicant dissatisfied with a determination made by the Director under 35 U.S.C. 154(b)(3) be filed in the United States District Court for the District of Columbia within 180 days after the grant of the patent

The Office acknowledges receipt of the \$200.00 fee set forth in 37 CFR 1.18(e). No additional fees are required.

The application is being forwarded to the Certificates of Correction Branch for issuance of a certificate of correction. The Office will issue a certificate of correction indicating that the term of the above-identified patent is extended or adjusted by one thousand six hundred and seventeen **(1617)** days.

Telephone inquiries specific to this matter should be directed to the undersigned at (571) 272-3222.
